

an IAA company

SYNETIQ Mechanical Solutions:

A complete repair service to get your vehicles back on the road.

Who we are

Working with some of the UK's **largest lease and fleet companies**, SYNETIQ Mechanical Solutions is the leading provider of **remanufactured** and **green mechanical parts**.

We provide a key-to-key service for major mechanical repair work resulting from mechanical failure or driver neglect.

Service includes; **collection, repair and return**. We manage the whole process in-house as well as provide a **12 month warranty with unlimited mileage** for the parts used.

How we can help you

Our service is designed to create **cost savings** while reducing **vehicle off-road time** and your **carbon footprint**.

- Supply and fit service
- Nation-wide collection - over 13 sites based around the country
- Competitive hourly labour rate compared to OEM
- Readily available mechanical green parts - cost savings up to 75% against RRP
- Providing a warranty for parts
- Carbon certificate to evidence CO2 savings
- Access to global resources
- Key-to-key management

Our products

- Engines - supply only or with fitting
- Engine components
- Transmissions / exhausts
- Catalytic converters
- Cylinder heads

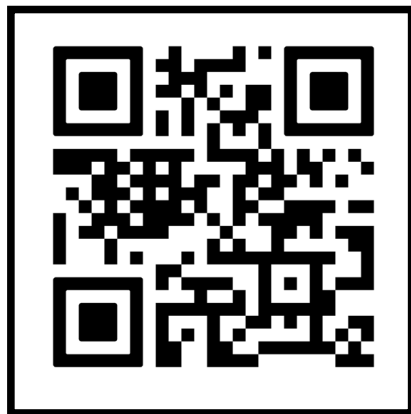

"The team provides a great service, from quick responses to repair quotations. We have full trust in them when confirming the diagnosis of our vehicles. They provide us with a cost-effective solution to help control our maintenance costs."
